Part 3. Grounds or Reasons for Requesting Variance

1. **Introduction and General Statement.** The Board of Adjustment is prohibited by law from granting a variance unless the Board makes a positive Finding (a determination) that (a) granting the variance will not be contrary to the public interest where, (b) because of special conditions, a literal enforcement of the provisions of the particular zoning ordinance would result in (c) unnecessary hardship to the owner. This Finding must be made with the objective and goal of observing the spirit of the zoning ordinance as a whole so that substantial justice will be done to both the Applicant and the citizens of Nevada. See Iowa Code Section 414.12(3).

   In order for the Board to make this positive Finding (this determination), you must demonstrate to the Board of Adjustment all of the following:

   I. that there are special conditions and circumstances, peculiar to this land, structure or building that are not applicable to, or the same as, other lands, structures or buildings in the same zoning district. Please describe in detail how your situation meets this requirement:

   ____________________________________________________________

   ____________________________________________________________

   ____________________________________________________________

   ____________________________________________________________

   II. That a literal interpretation or application of the ordinance in question will deprive the owner of the rights commonly enjoyed by the owners of other properties in the same
zoning district. Please explain in detail how and in what manner you are being deprived of the rights enjoyed by other property owners in the same zoning district, and specifically, what those rights are:

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

III. That if the Board does in fact grant your request for a Variance, it will not confer on you any special privilege that is denied by the zoning ordinance to the owners of other lands, structures or buildings in the same zoning district. Please explain in detail how the variance, if granted, will not confer a special privilege on you, compared to the other property owners in the same zoning district:

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

IV. That the Variance you are requesting is the minimum variance that will permit the reasonable use of the land, building or structure. Please explain in detail why a lesser or smaller variance than the one you are requesting would still deny you the reasonable use of your land, structure or building, when compared to other properties in the same zoning district:

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

V. That if the Variance you are requesting is granted by the Board, it will (A) be in harmony with the general purpose and intent of the zoning ordinance; (B) it will not be injurious to the neighborhood surrounding your property; and (C) it will not be detrimental to the public welfare in general. Please give your detailed explanation of how and why your variance, if granted by the Board, will meet all of these conditions, (A), (B) and (C).

(A) ___________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________;

(B) ___________________________________________________________________________
VI. That the City's literal enforcement of the zoning ordinance against you and your property by the Board's failure to grant the Variance you are requesting will result in unnecessary hardship to you. Please explain in detail the nature and extent of any hardship. If you are claiming a financial hardship, please be specific and describe the amount of the hardship in dollars, how you calculated the amount and how your failure to obtain the Variance will be the primary cause or reason for the resulting hardship, and not some remote, unrelated cause.

2. Present Facts, Not Conclusions. This appeal will not be successful unless sufficient facts, not mere conclusions, are presented in this Application to justify the variance in light of the requirements of the Ordinance. As a general statement, you must show that the granting of the variance relates to the overall intent and purposes of the Zoning Ordinance and the Comprehensive Plan as a whole. These documents are available at City Hall. You are free to review them, but are not required to do so. All of the basic, required information needed is contained in this Application.
3. **Building Permit Still Required.** Approval of the Variance by the Board of Adjustment in no way absolves the applicant from subsequently obtaining the necessary building permits or other permits from the City of Nevada or from other applicable agencies.

I (We) certify under penalty of perjury and pursuant to the laws of the State of Iowa, that I (We) have been denied a Building Permit, that I (we) have submitted all the required information for a Variance and that all of the information set forth above is factually true and correct, as I (We) verily believe.
